<https://github.com/jidson>

Abeokuta, NG-OG

## Education

---

**HIGHER NATIONAL DIPLOMA IN MICROIOLOGY** – Moshood Abiola Polytechnic – Abeokuta.

March 2018

## Skills

---

### Data Science & Analytics

Data-driven problem solver adept at leveraging advanced analytics techniques to illuminate actionable insights and deliver demonstrable business impact. Proficient in SQL, Power Query, Power BI, Python and related statistical libraries for data manipulation and visualization, along with strong Excel expertise for agile analysis and reporting.

## Projects

---

**TELECOMMUNICATION CHURN ANALYSIS** – Final Project at Grazac Academy.

July 2024

- Utilized **Excel** in cleaning churn data
- Implemented **Pivot table** techniques to generate insights into the data.
- Use pandas to perform extensive exploratory data analysis to obtain further and deeper understanding into the rate and reasons why customers were churning
- I built a compelling dashboard using Power BI to illustrate all my key findings and insights.

**FOODMART DATA ANALYSIS** – Project at Grazac Academy

June 2024

- Cleaned and analyzed foodmart data using excel
- Transformed and processed data by using Excel Power Query to ensure data completeness and validity
- Built a captivating visual representation of the analysis using excel

**WALMART DATA ANALYSIS** – Project at Grazac Academy

May 2024

- Utilized Python and statistical libraries to perform data analysis on Walmart sales data
- Performed data cleaning and text analysis to successfully ensure data validity and completeness

## Work Experience

---

**RESEARCH WRITER** – Jidson Tech– Abeokuta

November 2018 – Present

My role involves exploring diverse topics within academia, analyzing data, and synthesizing findings to contribute valuable insights to the field. I excel in critically evaluating literature, developing research methodologies, and presenting findings through clear and concise writing.

**DATA ENTRY** – Ogun State Ministry of Health (State Aids &STIs Control Programme (SASCP)) – Abeokuta

November 2018

My duties and responsibilities include recording and analyzing patients' health records, facilitating timely reporting for commodities to relevant offices, providing regular administrative support, receiving and computing facility reports for decision-making, and participating in quality assurance activities.
